Journal of Sports Sciences, 1996, **14**, 553–555

Subject index

Affect, motor performance, self-monitoring, self-regulation, task complexity, 233
Age and sex differences, psychological skills, psychomotor skills, ten-pin bowling performance, 255
Analgesia, exercise, pain threshold, pain tolerance, 329
Arm contribution, biomechanical theory, jumping, relative momentum, running, 503
Arousal, basketball, performance, stress, 393
Atherosclerotic diseases, exercise, exercise prescription, metabolism, 201
Attribution, dispositions, exercise adherence, external conditions, personal causation, 433

Ball release, finger flexion, overarm throwing, search-coil technique, 335
Ball swing, biomechanics, cricket fast bowling, injury, 403
Basketball, performance, stress, arousal, 393
Basketball shooting, biomechanics, shooting kinematics, 243
Basket-to-handstand mount, elite gymnasts, judges' evaluation, parallel bars, 269
Behaviour modification, coaching, feedback, notational analysis, verbal behaviour, 523
Biomechanical theory, jumping, relative momentum, running, arm contribution, 503
Biomechanics, cricket fast bowling, injury, ball swing, 403
Biomechanics, forehand, segment contributions, squash, 159
Biomechanics, shooting kinematics, basketball shooting, 243
Boardsailing, EMG, muscle, 125
Body position, cycling. lower limb, musculoskeletal model, optimization, power, 139
Book reviews, 105, 187, 281, 371, 457, 545

Club matching, golf equipment, inertia tensor, iron golf clubs, optimal design, 311
Coaching, feedback, notational analysis, verbal behaviour, behaviour modification, 523
Communications to the Annual Conference of the British Association of Sport and Exercise Sciences (BASES), 3
Communications to the International Conference on Dehydration, Rehydration and Exercise in the Heat, 347
Compliance, psychology, sports injury, 471
Correction procedures, cycle ergometry, maximal intensity exercise, optimization procedures, power output, 513
Creatine supplementation, rowing performance, 175
Cricket fast bowling, injury, ball swing, biomechanics, 403
Crowd size, mean attendance, penalties scored, sendings-off, 181
Cycle ergometry, maximal intensity exercise, optimization procedures, power output, correction procedures, 513
Cycling, lower limb, musculoskeletal model, optimization, power, body position, 139

Delayed onset muscle soreness, downhill running, isokinetic eccentric training, muscle tenderness, 291
Deoxyguanosine, DNA damage, extreme exercise, free oxygen radicals, oxidative stress, 343
Diaphragm, exercise, isometric exercise, respiration, respiratory mechanics, respiratory muscles, 425
Disposition, situation, task and ego involvement, 111
Dispositions, exercise adherence, external conditions, personal causation, attribution, 433
DNA damage, extreme exercise, free oxygen radicals, oxidative stress, deoxyguanosine, 343
Downhill running, isokinetic eccentric training, muscle tenderness, delayed onset muscle soreness,291

Editorials, 1, 109, 199, 289, 379, 469
Electromyography, inverse dynamics, kicking, martial arts, proximo-distal, 483
Elite athletes, endurance, flexibility, rock climbing, strength, 301
Elite gymnasts, judges' evaluation, parallel bars, basket-to-handstand mount, 269
EMG, ergometer, muscle, windsurfing. 131
EMG, muscle, boardsailing, 125
Endurance, flexibility, rock climbing, strength, elite athletes, 301
Endurance capacity, running, water ingestion, 497
Ergometer, muscle, windsurfing, EMG, 131
Errors, resultant joint moments, uncertainties, 219
Exercise, exercise prescription, metabolism, atherosclerotic diseases, 201
Exercise, isometric exercise, respiration, respiratory mechanics, respiratory muscles, diaphragm, 425
Exercise, pain threshold, pain tolerance, analgesia, 329
Exercise adherence, external conditions, personal causation, attribution, dispositions, 433
Exercise prescription, metabolism, atherosclerotic diseases, exercise, 201
External conditions, personal causation, attribution, dispositions, exercise adherence, 433
Extreme exercise, free oxygen radicals, oxidative stress, deoxyguanosine, DNA damage, 343

Feedback, notational analysis, verbal behaviour, behaviour modification, coaching, 523
Finger flexion, overarm throwing, search-coil technique, ball release, 335
Fitness assessment, running economy, treadmill running, 321

0264–0414/96 © 1996 E. & F.N. Spon

Flexibility, rock climbing, strength, elite athletes, endurance, 301
Forehand, segment contributions, squash, biomechanics, 159
Free oxygen radicals, oxidative stress, deoxyguanosine, DNA damage, extreme exercise, 343

Golf equipment, inertia tensor, iron golf clubs, optimal design, club matching, 311

Inertia tensor, iron golf clubs, optimal design, club matching, golf equipment, 311
Injury, ball swing, biomechanics, cricket fast bowling, 403
Inverse dynamics, kicking, martial arts, proximo-distal, electromyography, 483
Iron golf clubs, optimal design, club matching, golf equipment, inertia tensor, 311
Isokinetic eccentric training, muscle tenderness, delayed onset muscle soreness, downhill running,291
Isometric and isokinetic tests, plyometric training, weight training, 167
Isometric exercise, respiration, respiratory mechanics, respiratory muscles, diaphragm, exercise, 425

Judges' evaluation, parallel bars, basket-to-handstand mount, elite gymnasts, 269
Jumping, relative momentum, running, arm contribution, biomechanical theory, 503

Kicking, martial arts, proximo-distal, electromyography, inverse dynamics, 483

Lower limb, musculoskeletal model, optimization, power, body position, cycling, 139

Martial arts, proximo-distal, electromyography, inverse dynamics, kicking, 483
Maximal intensity exercise, optimization procedures, power output, correction procedures, cycleergometry, 513
Mean attendance, penalties scored, sendings-off, crowd size, 181
Mental practice, mental rehearsal, meta-analysis, research design, 381
Mental rehearsal, meta-analysis, research design, mental practice, 381
Meta-analysis, research design, mental practice, mental rehearsal, 381
Metabolism, atherosclerotic diseases, exercise, exercise prescription, 201
Motor performance, self-monitoring, self-regulation, task complexity, affect, 233
Muscle, boardsailing, EMG, 125
Muscle, windsurfing, EMG, ergometer, 131
Muscle tenderness, delayed onset muscle soreness, downhill running, isokinetic eccentric training,291
Musculoskeletal model, optimization, power, body position, cycling, lower limb, 139

Notational analysis, verbal behaviour, behaviour modification, coaching, feedback, 523

Optimal design, club matching, golf equipment, inertia tensor, iron golf clubs, 311
Optimization, power, body position, cycling, lower limb, musculoskeletal model, 139
Optimization procedures, power output, correction procedures, cycle ergometry, maximal intensityexercise, 513
Overarm throwing, search-coil technique, ball release, finger flexion, 335
Oxidative stress, deoxyguanosine, DNA damage, extreme exercise, free oxygen radicals, 343

Pain threshold, pain tolerance, analgesia, exercise, 329
Pain tolerance, analgesia, exercise, pain threshold, 329
Parallel bars, basket-to-handstand mount, elite gymnasts, judges' evaluation, 269
Patterns of play, self-organizing behaviour, squash, stability, 445
Penalties scored, sendings-off, crowd size, mean attendance, 181
Performance, stress, arousal, basketball, 393
Personal causation, attribution, dispositions, exercise adherence, external conditions, 433
Plyometric training, weight training, isometric and isokinetic tests, 167
Power, body position, cycling, lower limb, musculoskeletal model, optimization, 139
Power output, correction procedures, cycle ergometry, maximal intensity exercise, optimization procedures, 513
Proximo-distal, electromyography, inverse dynamics, kicking, martial arts, 483
Psychological skills, psychomotor skills, ten-pin bowling performance, age and sex differences, 255
Psychology, sports injury, compliance, 471
Psychomotor skills, ten-pin bowling performance, age and sex differences, psychological skills, 255

Relative momentum, running, arm contribution, biomechanical theory, jumping, 503
Research design, mental practice, mental rehearsal, meta-analysis, 381
Respiration, respiratory mechanics, respiratory muscles, diaphragm, exercise, isometric exercise, 425
Respiratory mechanics, respiratory muscles, diaphragm, exercise, isometric exercise, respiration, 425
Respiratory muscles, diaphragm, exercise, isometric exercise, respiration, respiratory mechanics, 425
Resultant joint moments, uncertainties, errors, 219
Rock climbing, strength, elite athletes, endurance, flexibility, 301
Rowing performance, creatine supplementation, 175
Running, arm contribution, biomechanical theory, jumping, relative momentum, 503
Running, water ingestion, endurance capacity, 497
Running economy, treadmill running, fitness assessment, 321

Search-coil technique, ball release, finger flexion, overarm throwing, 335

Segment contributions, squash, biomechanics, forehand, 159
Self-monitoring, self-regulation, task complexity, affect, motor performance, 233
Self-organizing behaviour, squash, stability, patterns of play, 445
Self-regulation, task complexity, affect, motor performance, self-monitoring, 233
Sendings-off, crowd size, mean attendance, penalties scored, 181
Shooting kinematics, basketball shooting, biomechanics, 243
Situation, task and ego involvement, disposition, 111
Sports injury, compliance, psychology, 471
Squash, biomechanics, forehand, segment contributions, 159
Squash, stability, patterns of play, self-organizing behaviour, 445
Stability, patterns of play, self-organizing behaviour, squash, 445
Strength, elite athletes, endurance flexibility, rock climbing, 301
Stress, arousal, basketball, performance, 393

Task and ego involvement, disposition, situation, 111
Task complexity, affect, motor performance, self-monitoring, self-regulation, 233
Ten-pin bowling performance, age and sex differences, psychological skills, psychomotor skills, 255
Treadmill running, fitness assessment, running economy, 321

Uncertainties, errors, resultant joint moments, 219

Verbal behaviour, behaviour modification, coaching, feedback, notational analysis, 523

Water ingestion, endurance capacity, running, 497
Weight training, isometric and isokinetic tests, plyometric training, 167
Windsurfing, EMG, ergometer, muscle, 131

Journal of Sports Sciences, 1996, **14**, 557
